ENGINEERING**

OVER

40+

YEARS OF
INDUSTRY EXPERIENCE

ENGINEERING EXCELLENCE BUILT AROUND QUALITY

Kentronix Engineering provides complete engineering solutions for businesses throughout the UK.

With more than **40 years** of combined industry experience, we deliver high-quality manufacturing, fabrication and engineering services with reliability and precision at the heart of everything we do.

From one-off bespoke projects to ongoing batch production, our experienced team works closely with customers to provide practical solutions that meet exact requirements.

We pride ourselves on delivering exceptional workmanship, responsive service and long-term customer relationships.

PRECISION
FOCUSED

QUALITY
ASSURED

RELIABLE &
RESPONSIVE

CUSTOMER
FOCUSED

“ Precision in every detail.
Quality in every delivery.

SUPPLYING MULTIPLE SECTORS

Kentronix Engineering works with customers across a wide range of industries, including:

Automotive

General Manufacturing

Pharmaceutical

Safety Equipment

Water & Wastewater

Framework &
Structural Projects

Defence

Sculpture &
Architectural Applications

Our flexible approach allows us to adapt to the unique requirements of each industry.

BESPOKE SOLUTIONS MANUFACTURED TO YOUR SPECIFICATION

We manufacture a variety of specialist components including:

Cover and Guarding

**Mortuary & medical equipment
Brackets**

**Welding of Stainless steel,
mild steel, Aluminium, and
other specialised alloys**
Baffles and Flanges

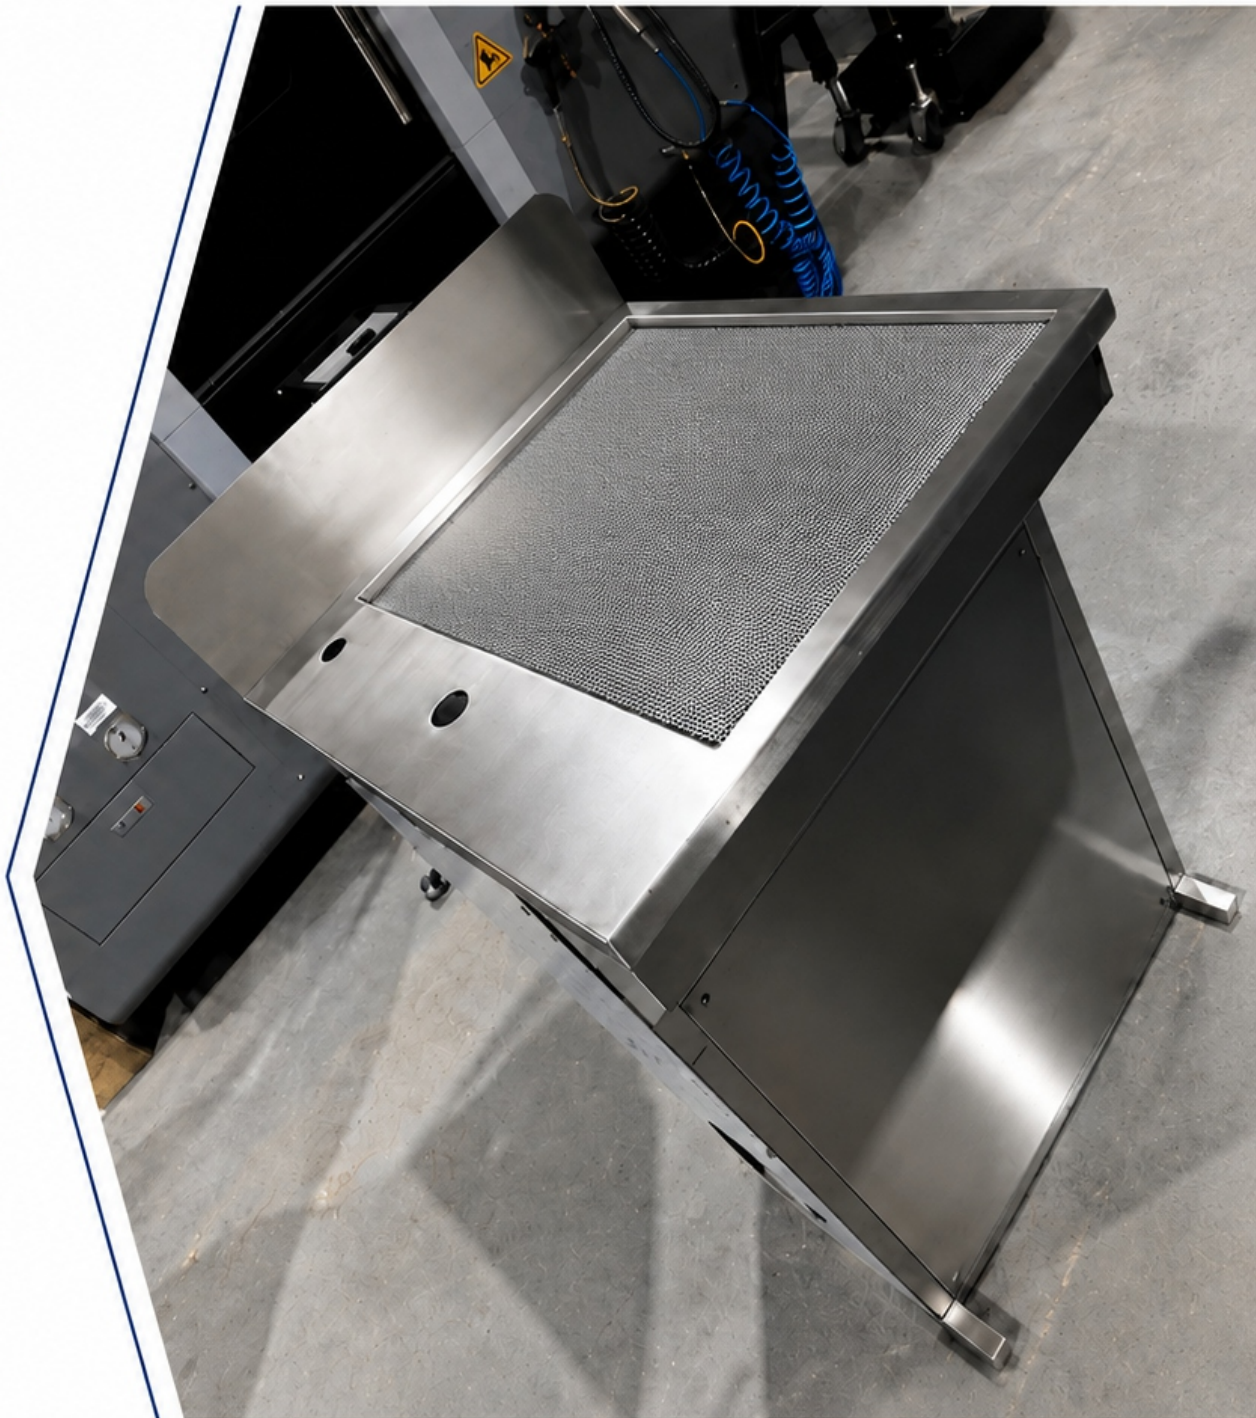

Plant room & pipe fitting
Covers and Guarding

**Specialist fabrication &
CNC components**

From prototype development to repeat production, every component is produced with quality and reliability in mind.

MODERN EQUIPMENT. PROVEN CAPABILITY.

Our investment in modern equipment allows us to deliver consistent quality, fast turnaround times and dependable results.

Our facilities include:

CNC machining capabilities across two sites

Laser cutting and forming equipment

Welding and fabrication facilities

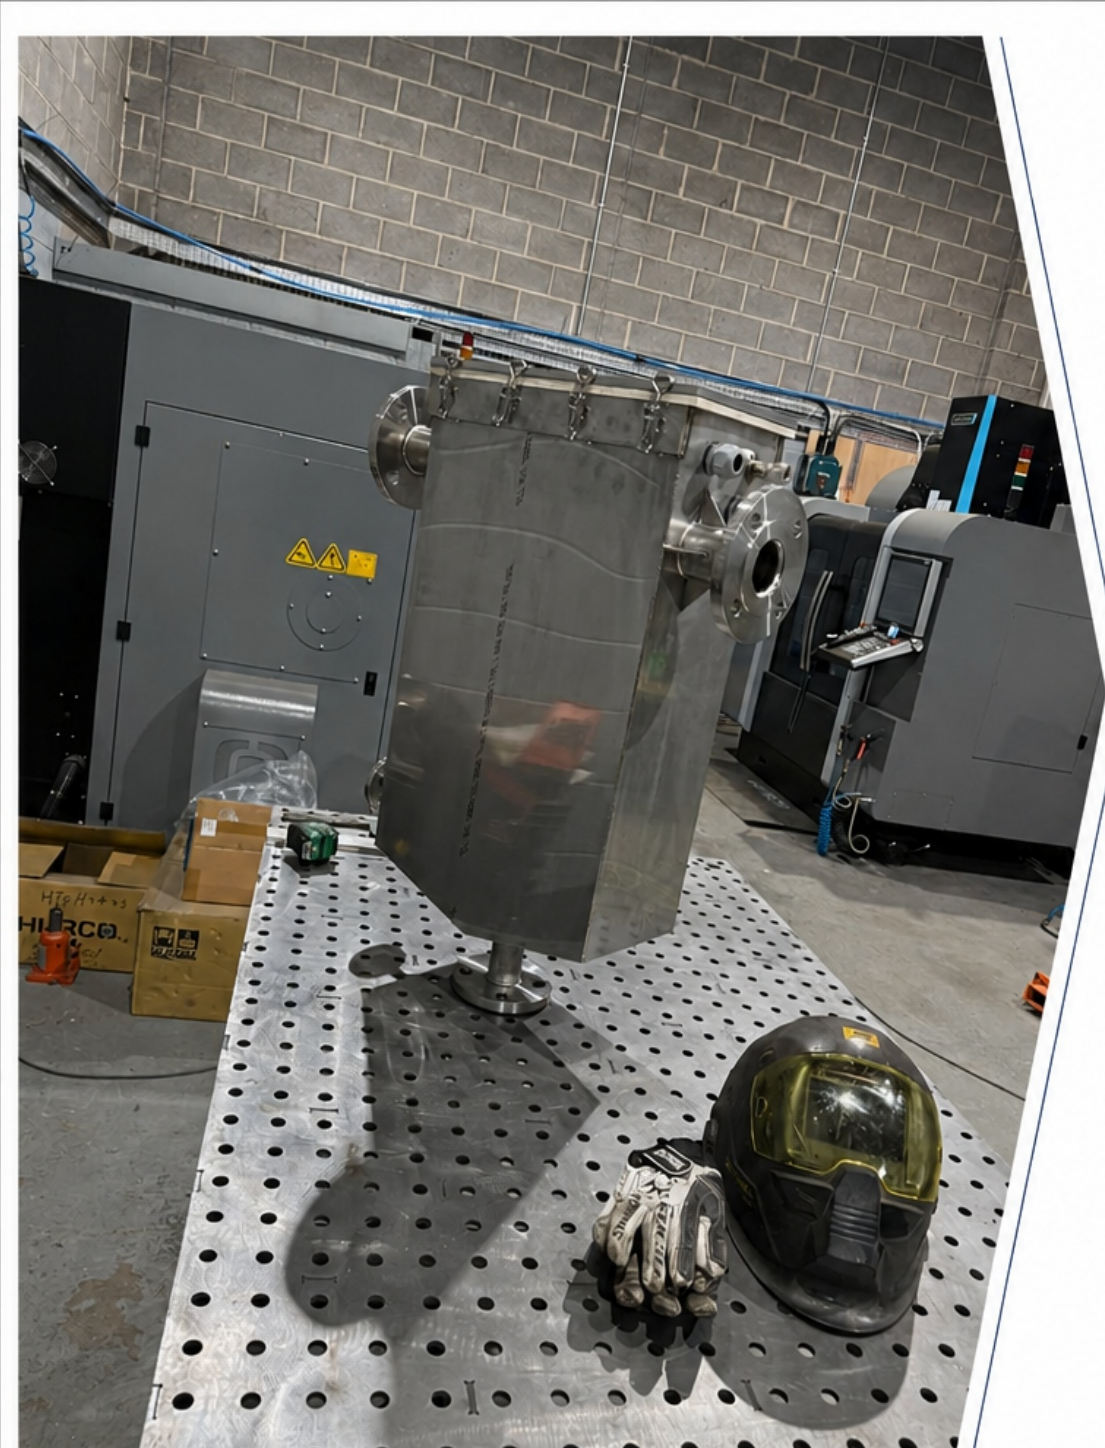

Precision finishing and polishing services

Assembly and electrical engineering capabilities

Whether producing a single component or a complete production run, we have the capacity and expertise to deliver.

COMPLETE ENGINEERING SERVICES

LASER CUTTING & FORMING

Accurate cutting and shaping using advanced manufacturing equipment.

FABRICATION & WELDING

High-quality MIG and TIG welding for mild steel, stainless steel and aluminium.

CNC MACHINING

Precision milling and turning for bespoke parts, prototypes and production runs.

POLISHING & FINISHING

Professional finishing services including polishing, powder coating and protective treatments.

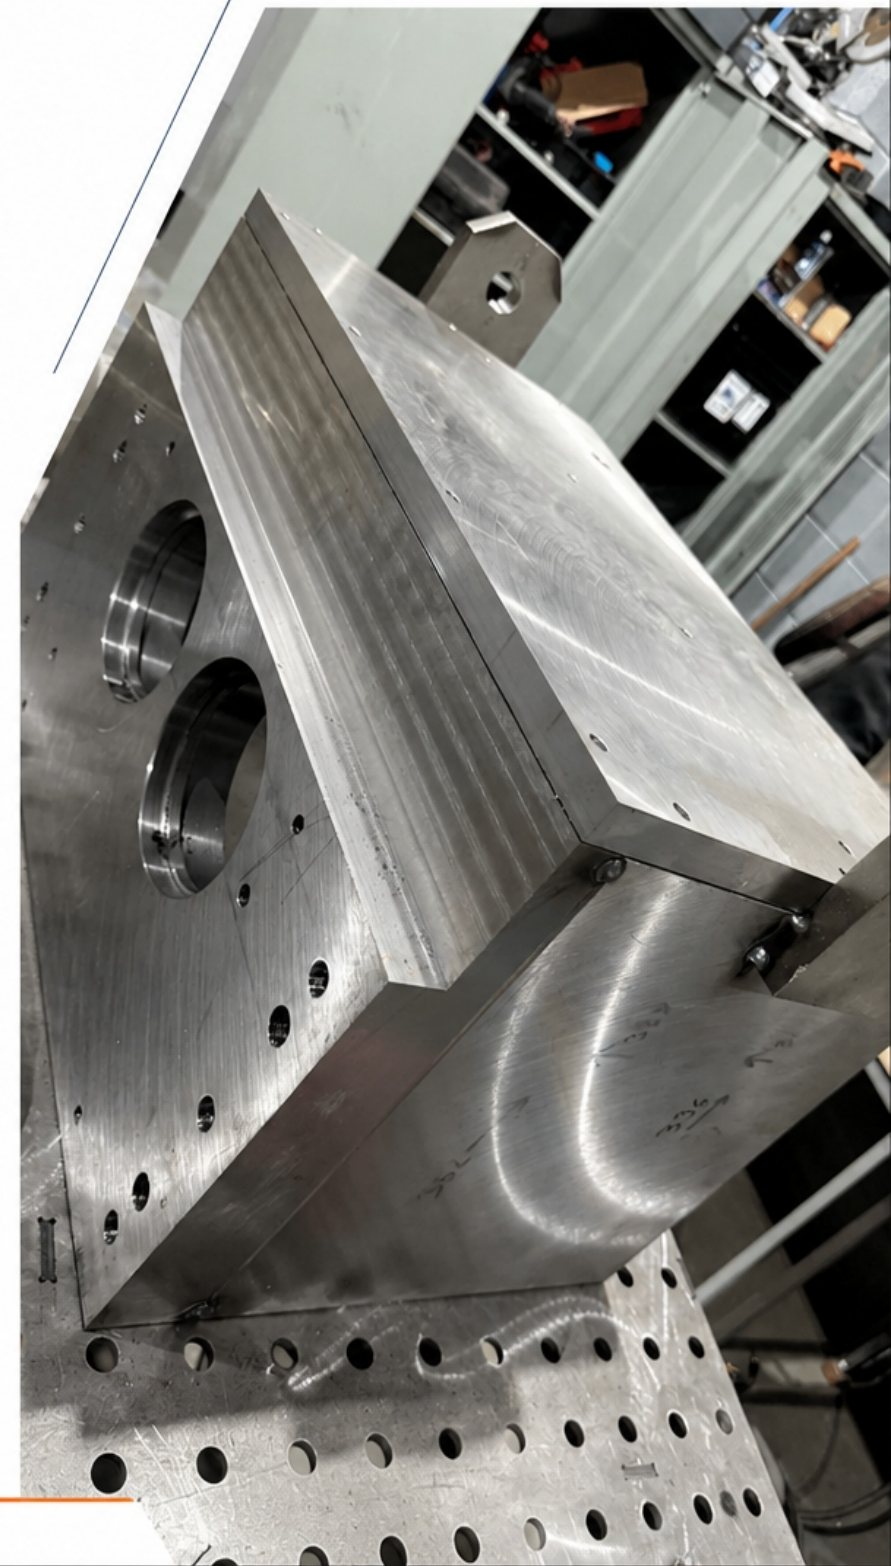

ELECTRICAL ENGINEERING

Control panels, wiring solutions, MCCs and specialist electrical assemblies.

CAD/CAM DESIGN

Design support and manufacturing solutions tailored to your requirements.

WHY CUSTOMERS CHOOSE US

Over 40 years
of engineering experience

Complete in-house
engineering solutions

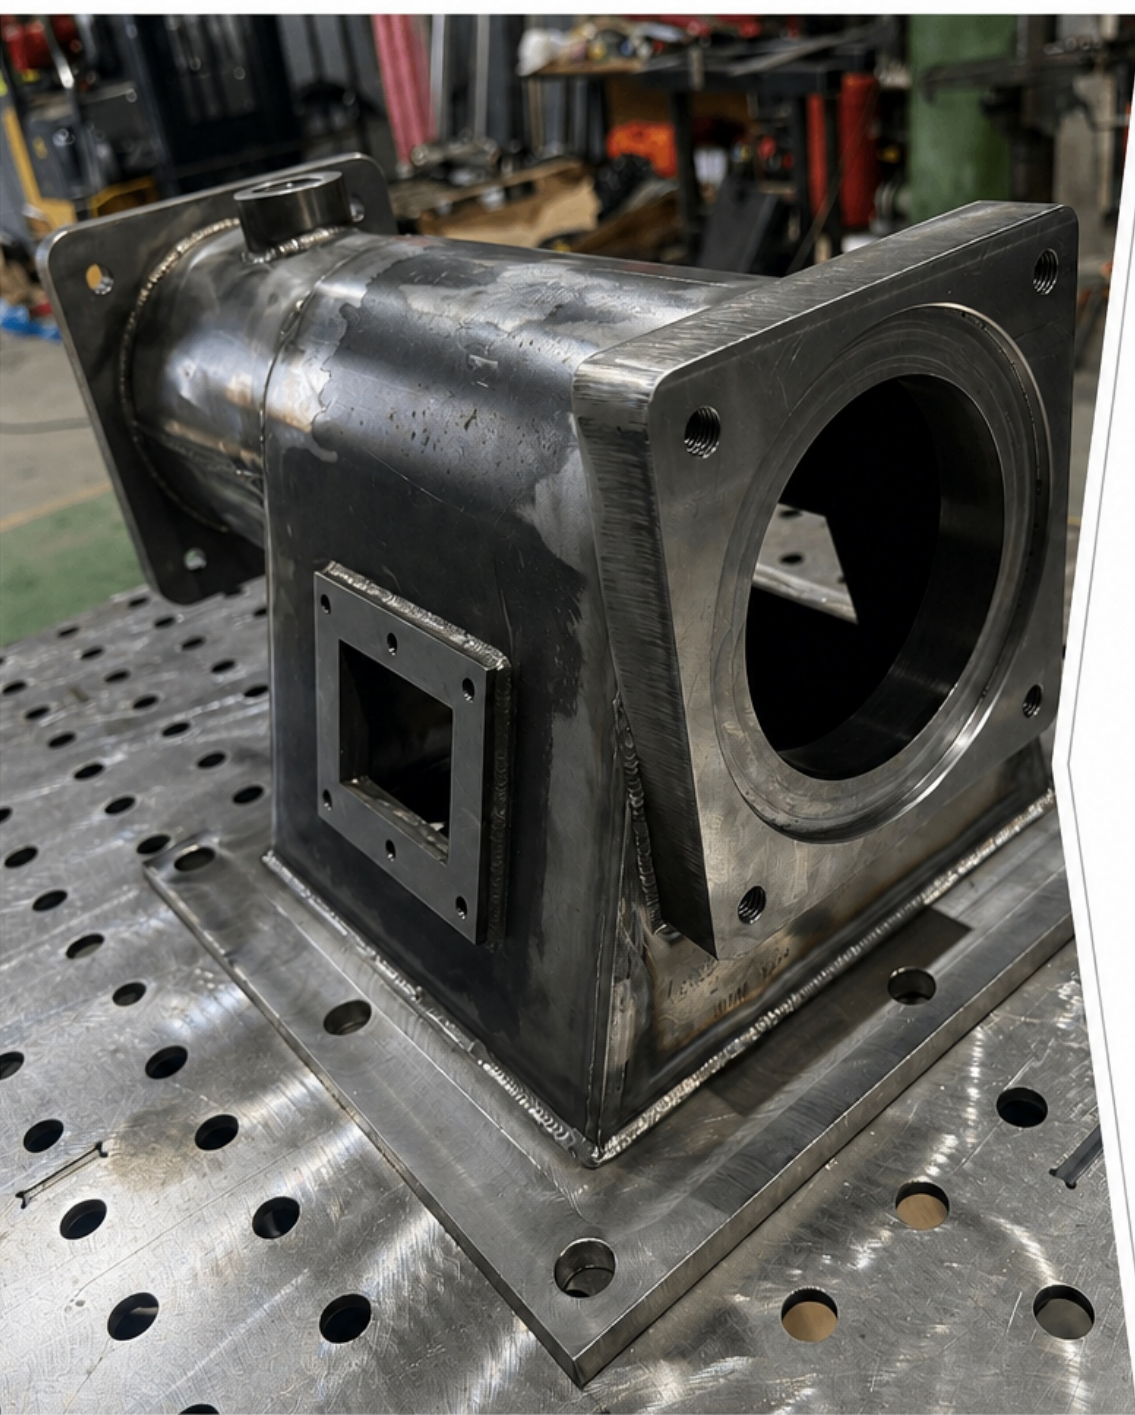

High-quality
workmanship

Bespoke and batch
production capabilities

At **Kentronix Engineering**, quality
isn't just expected — **it's standard.**

LET'S DISCUSS YOUR NEXT PROJECT

Whether you require fabrication, machining, electrical engineering or complete project support, our team is ready to help.
